

To the Legislators of the Province of Alberta:

We the undersigned, find **Bill #24 Adult Guardianship and Trusteeship Act** is unjust legislation that violates the *Charter of Rights and Freedoms*. Section 103 states that an assessor, under the direction of the court, can violate the privacy of your home in order to assess your competency. Section 104 allows the court to determine your competency in your absence and without an assessment. These are examples of the draconian nature of this legislation. Therefore we ask that this Act be rescinded and that fair and just legislation be enacted.
